

At the moment we are doing some maintenance works around the place. This includes:

- fixing numerous cracks that have developed in the church walls, and re-painting the whole thing
- Fixing water-damage (in church and rectory) which was caused prior to the fixing of the roofs.

This will cost around \$20,000

Meanwhile, the stove in the hall, which has served us for a good number of years, needs to be replaced. A new stove will be close to \$5,000.

We are not organizing any special fund-raising activities for these works. However, if you'd like to help, please put your contribution in the blue "maintenance" envelope, or send a cheque or e-transfer clearly marked "for maintenance". Thank you in advance, and, as always, God will bless your generosity.

Some samples of cracks in the church walls

For many years this stove has faithfully served us, now it's longing for retirement!
